Hi there

Life's Peachey is my UK-based surface pattern design brand, where I create seamless repeat designs for quilting cotton and craft fabrics.

My work blends folk-inspired florals and nature-led motifs with a soft, approachable aesthetic, designed as cohesive collections with strong coordinates and blenders for quilt shops.

All designs are available as layered PSD or vector files and are ready for professional production - I'm happy to make colour, scale, or collection edits where needed.

This is a short, curated mini-portfolio. If helpful, I'd be happy to share my full portfolio as a PDF or you can access via the link below.
